AUDITOR GENERAL**

The Honorable Darrell Clarke, Chairman  
Pennsylvania Liquor Control Board

Harrisburg, PA 17124

Dear Chairman Clarke:

We have performed an examination of Fine Wine and Good Spirits Store 4652, Montgomery County, District 1-07, operated by the Pennsylvania Liquor Control Board (PLCB). We examined store operations for the period September 17, 2024 to August 20, 2025.

This report presents the results of the Department of the Auditor General's examination of store operations under the jurisdiction of the Pennsylvania Liquor Control Board (PLCB). The examination was conducted under statutory authority provided under 47 P.S. § 3-306 of the Pennsylvania Liquor Code.

This examination was conducted only to the extent that we considered necessary to determine if the wine and spirits store operated in compliance with PLCB operating procedures. The examination was not conducted, nor was it required to be, in accordance with professional auditing or attestation standards.

Our examination included:

- Conducting a physical inventory count for a selection of liquor codes and comparing our results to the store's perpetual inventory records to determine whether inventory differences in excess of \$200 in value exists for these codes;
- Reviewing deposits, consisting of cash and checks deposited manually and credit and debit card receipts deposited electronically, to determine whether deposits were appropriately accounted for and agreed with PLCB financial records;
- Reviewing Clerk Performance Reports, Ad Hoc Reports, Shipment Invoices, and Transfer Reports to determine the store's compliance with PLCB internal controls;

- Performing a count of all cash on hand to determine whether the store's cash on hand agrees with supporting store documents and bank records, and verifying whether the total store operating fund charged to the store agrees with the amount provided by the PLCB;
- Performing tests of Licensee Sales, Tax-Exempt Sales, Minor Challenges, System Prices, Register Voids, Register Deposits, and Breakage/Adjustment Controls to determine whether store operations were in compliance with PLCB operating procedures;
- Selecting liquor codes and verifying that the sales price in the store system agrees to the PLCB's approved price list; and,
- Locating and verifying that all PLCB capital assets are present at the store and comparing our results to the PLCB fiscal year asset equipment list for accuracy.

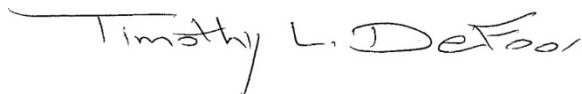

The results of our examination found that Fine Wine and Good Spirits Store 4652 operated in compliance with all PLCB operating procedures falling within the scope of our examination, except as noted in the following finding and discussed later in this report. This matter was discussed with appropriate personnel and is intended to assist you in improving internal controls.

Finding – Inventory Discrepancy Exceeding \$200 in Value

We would like to thank store management for their cooperation extended to us during the conduct of the examination.

## **BACKGROUND**

The Pennsylvania Liquor Control Board (PLCB) operates a diverse network of retail and wholesale distribution facilities across the Commonwealth, including Premium Collection Stores, One-Stop/Supermarket Stores, Taste & Learn Stores, Lottery Locations, Wholesale Stores/Licensee Service Centers (LSCs) and an online E-Commerce Store. Each of these store types serves a distinct function – ranging from public retail and licensee fulfillment to education, special product releases, and bulk distribution.

The Department of the Auditor General’s authority to examine PLCB store operations is derived from Section 306 of the Pennsylvania Liquor Code (47 P.S. § 3-306).

FINDING AND RECOMMENDATION**

**Finding – Inventory Discrepancy Exceeding \$200 in Value**

**Condition**

A random sample count of 57 liquor codes, comprised of 3,612 units valued at \$106,617.38, was performed on August 21, 2025. We compared PLCB perpetual inventory records for the 57 liquor codes to actual inventory on hand. The perpetual inventory records and the actual inventory count matched 55 codes; however, for the remaining 2 codes, the actual inventory count did not agree with the perpetual inventory records. The discrepancies are noted below.

<b>Discrepant Code Item Number</b>	<b>Physical Count</b>	<b>Perpetual Inventory</b>	<b>Difference</b>	<b>Retail Cost Per Unit</b>	<b>Total Value</b>
1	9	10	(1)	\$14.99	(\$14.99)
2	255	239	16	\$35.99	\$575.84

On August 26, 2025, PLCB management was notified of the differences between actual inventory and the PLCB's perpetual inventory records so that the PLCB could investigate the differences and make appropriate adjustments to its inventory records.

**Criteria**

The PLCB Manual of Instructions, Chapter 710-14, Random/Complete Physical Inventory Comparison establishes procedures that require store management to maintain accurate perpetual inventory records.

**Cause**

Contributing factors include, but are not limited to, theft, malfunctions in the inventory management system, failure to properly adjust inventory records and failure by store employees to properly accept or dispatch inventory transfers and shipments.

**Effect**

Unacceptable inventory discrepancies demonstrate an inability to properly manage PLCB merchandise, reduce the ability of the Board to accurately maintain records of profit and loss, and may result in a reduction in PLCB revenue.

FINDING AND RECOMMENDATION**

**Finding – (Continued)**

**Recommendation**

We recommend that the Board investigate this situation and take whatever action it deems necessary to bring inventory discrepancies within the parameters established by the Board. Furthermore, the Board should monitor inventory levels and work with store employees to detect and correct inventory discrepancies in a timely manner.

**Management Response**

The manager agrees with discrepancies.

**Examiner's Conclusion**

During examination of breakage and adjustments reports, it was noted that none of the discrepant codes noted above were found during this random inventory count.

During examination of shipment invoices, it was noted that none of the discrepant codes appeared as discrepant during delivery.

Compliance along with any subsequent corrective action taken will be subject to verification in the subsequent examination.
